

SAUEREISEN

PROJECT PROFILE

Project: Headworks Rehabilitation Project
Location: Laughlin Water Reclamation Facility, Laughlin, NV
Owner: Clark County Water Reclamation District (CCWRD)
Engineer: Stanley Consultants, Las Vegas, NV
Applicator: RPI Coating (now Southwest Specialty Coatings)
Sauereisen Representative:
Mike Keating, J. A. CRAWFORD CO.
Products:

- Resurfacing Compound No. F-121
- SewerGard No. 210S

Environment / Exposure: Municipal Wastewater
Project Details:
Rehabilitation and coating of existing Headworks by application of Sauereisen Resurfer No. F-121 and Sauereisen SewerGard No. 210 Lining. Existing surfaces were severely corroded with rebar exposure. After surface preparation No. F-121 was applied over the entire surface area and then SewerGard No. 210S was spray applied at 125 mils thickness (two coats).
