

# SAUEREISEN

## PROJECT PROFILE

**Project:** Kaneohe-Kailua Sewer Tunnel Project

**Owner:** City and County of Honolulu

**Engineer:** Wilson Okamoto Corporation

**General Contractor:** Hensel Phelps Construction Co.

**Coating Contractor:** Honolulu Painting Co., Ltd

**Sauereisen Representative:** J. A Crawford Co.

**Products:**

- Filler Compound 209
- SewerGard® Sprayable 210S

**Method of Application:** Trowel & Airless Spray

**Environment / Exposure:**

Microbiologically Induced Corrosion (MIC) and erosion from wastewater with elevated temperatures of Hawaiian climate.

**Project Details:**

This project was specified with the 209/210S system at 60-mils. The size and scope, variety of structures, various configurations, terminations, depth of structures, attention to detail, masking, and the smooth finish achieved is very impressive.
